

EnginSoft S.p.A.

EnginSoft is an Italian owned international consulting company operating in the field of Computer-Aided-Engineering (CAE). Founded in 1984 to disseminate new insights and techniques in computational technologies, EnginSoft is today a growing force with 120 employees, 5 offices in Italy, and a growing Network of partner offices and subsidiaries in Europe and USA, and partnerships with both companies and universities.

EnginSoft's mission is to spread the culture of digital design technology within both production and research environments. We pursue this challenge by offering engineering consulting services, world-class CAE software, dedicated training courses and initiatives, and by promoting conferences, collaboration with research institutes, and publishing activities.
